Dear Sir:

Subject: "Claim" against Motors Liquidation Company
and General Motors Corporation.

- * To protect my General Motors common stock
and be given a dollar value compensation for 1000
shares a value of \$96,700.
or be granted equal value of shares in
total dollar value in the New General Motors
stock that is to be issued in the future.

I don't feel General Motors should issue New
General Motors stock. The company is still
General Motors. The old General Motors $\frac{1}{5}$
New General Motors is just a out plot/scam.
It's still General Motors. And the stock holder
gets hurt at a loss.

I've been a General Motors stock owner
for 48 years and now I'm completely at a loss
and lost my lifes savings, and on the verge
of a nervous break down on this matter.

I feel I should be compensated in some
respect, by dollar value or in New General
Motors stock of equal dollar value when
issued.

"over please"

#2

"Continued" from page #1

Why not just continue with the same General Motors old stock and continual business; as I said previously it's still General Motors no matter how you look at it. The New General Motors vs the old General Motors is just a farce/scam.

Who would buy the New General Motors stock after what they did to the present stock holders of common stock. People don't forget tragedy.

As I said, I'm almost at a nervous break down and hope General Motors has some loyalty for me after my loyalty to them for 48 years as a G.M. stock owner.

I thank you in advance and hope something can be done for me as a compensation for my loss.

I will be awaiting your decision and response regarding this painful situation I have at hand.

PS Thank you again
for Reviewing my
"Claim Case"

Regards,

John Polosky
